SELF-LIGATING MASTERCLASS: APPLYING THE NORRIS 20/26 SYSTEM FOR REAL CASE SUCCESS

Date: April 11-12

Location: Bucharest

Sponsored by:

 **DynaFlex®**

DR. TITO NORRIS

Norris **20/26**
BRACKET SYSTEM

Dr. Tito Norris is dedicated to creating smiles that last a lifetime. His unique background in mechanical engineering gives him a distinct advantage in mastering the forces, vectors, and movements inherent in orthodontic treatment.

Dr. Norris graduated from the University of Texas Health Science Center. He then moved to Washington, D.C., where he completed a General Practice Residency at the V.A. Hospital, followed by specialized orthodontic training at Howard University. After serving as an Air Force orthodontist in Misawa, Japan, Dr. Norris returned to San Antonio in 1998 and opened a successful orthodontic practice.

He holds multiple patents and trademarks, is certified by the American Board of Orthodontics, and is a member of 10 dental organizations and study clubs. He lectures nationally and internationally on topics such as aesthetics, efficiency, sustainability, customer service, accelerated treatment, and aligner therapy. Additionally, he has founded and manages several businesses in fields such as real estate investment, marketing, retail, and a non-profit organization that provides free orthodontic care to children in need.

COURSE PROGRAM

Day 1

The Norris System Overview

- Mechanics & Efficiency
- Bracket positioning
- Earlier wire engagement

Airway Friendly Orthodontics

- Exploring comprehensive airway
- Reading CBCT images
- Identifying factors indicating nasal and/or pharyngeal airway obstruction

New Horizons In Interdisciplinary Treatment

- Facially-driven treatment planning
- Treatment of gummy smiles
- Pre-orthodontic bonding
- MARPE, TADs, SAS and 3D trans-palatal arches

Substitution and Autotransplantation

- Dental implants in the esthetic zone
- Techniques for predictable, successful, and esthetic substitutions and autotransplantations

Day 2

Extraction Cases and Surgical Cases.

Hands-on Optimal Bracket Placement on different Cases.

Case Presentation and Discussions.

Applying the Diagnostic principles from Day 1 to actual cases. (PART I).

Case Presentation and Discussions (PART II).

WHY JOIN THE COURSE?

MASTER MODERN TECHNIQUES

Learn efficient bracket positioning, earlier wire engagement, and advanced bonding methods for predictable outcomes.

EXPAND MULTIDISCIPLINARY SKILLS

Tackle complex cases with facially-driven treatment planning, MARPE systems, TADs, and solutions for gummy smiles.

EXPLORE AIRWAY-FRIENDLY ORTHO

Diagnose and manage nasal or pharyngeal obstructions with CBCT imaging and surgical options.

GAIN HANDS-ON EXPERIENCE

Practice optimal bracket placement and apply diagnostic principles to real-world cases with a **Norris 20/26 self-ligating bracket set worth 300 €** for the hands-on session.

EXCLUSIVE OFFER

50% discount on Norris 20/26 Brackets for 1 year!

SELF-LIGATING STARTER

Receive a **100 € UpOrtho voucher** for Dynaflex self-ligating solutions.
